

Doberman Rescue of Minnesota

Peace of Mind, Body & Soul's First Rescue Partner for 2012

I'm excited to announce our first rescue we are teaming up with is Doberman Rescue of Minnesota. These folks and the special dogs they find loving homes for are near & dear to my heart. My Tucker came from them and I was blessed with nine wonderful years with him. He was loyal, dedicated and stoic....a true testament of the breed. I've spent many years supporting them in various ways and love that we can help them spread the word about their program and the available dogs. Also, when these featured dogs find their new family, they will be given special rates on services from Peace of Mind, Body & Soul throughout the year.

About Doberman Rescue of Minnesota

Doberman Rescue Minnesota mission is to save abandoned, homeless, injured, abused and neglected Dobermans and find them a forever home that will love and care for them for the rest of their lives. We also try to educate the public about this intelligent, loyal and active breed, and to remove any negativity associated with these fabulous creatures. They are dedicated to finding the best possible home for all Dobermans that come into our adoption program. The decisions and recommendations regarding surrendering or adopting a Doberman are based primarily on what is in the best interest of the dog and are guided by many years of experience with the breed. Doberman Rescue of Minnesota cares as much about the quality of life for all Dobermans in their program as they do their own dogs. Dobermans in the program are never kenneled and live in private homes with foster families who evaluate the Doberman for temperament and behavior traits so they can make recommendations on the best type of home for the dogs.

Meet Bella!

Bella was found as a stray. She is a spayed, blue female Doberman and is 1-2 years old. Bella is crate trained and housebroke. She loves to get as much human attention as possible and does well with other dogs and kids. She does not do well with cats! Bella loves to eat, play ball and go for daily walks. She is very treat motivated and will be easy to train! Bella is a really sweet girl who just wants a forever home to call her own. Bella is micro chipped, heart worm negative and up to date on all vaccines.

Watch for her [You Tube](#) video. If you are interested in learning more about Bella or giving her a loving home, go to their website, www.dobermanrescueminnesota.com and fill out an adoption form.

There are also many other Dobermans available through the program so check out their website or contact them directly so they can help you find a perfect match!

About Peace of Mind, Body & Soul

Products and services to help maintain the health and wellness of animals and people through integrative methods including animal communication, canine & equine massage therapy, Reiki, acupressure, Raindrop Technique[®], Young Living therapeutic-grade essential oils, nutritional supplements & body care items.
